| Precipitation probability | | | | | |
| 40% | 40% | 40% | 40% | 40% | 30% |

**Forecast for Monday 06 Nov 2023**

**Weather:** A mix of showers and brighter spells. Showers will be most frequent across western hills, but often spreading further east, with all hills likely seeing some rain at times. These could also be heavy at times, with the risk of hail and thunder, particularly for the afternoon. On the very highest summits, the odd burst of sleet is possible in the heaviest showers.

**Chance of cloud-free hill tops above 800m:** 30% in the west and 60% in east

**Low Cloud and visibility:** Cloud will often obscure hills above 800m, especially in the west, with some summits only seeing fleeting glimpses of clearer conditions. Cloud will also descend to around 600m during any heavier showers. Visibility will otherwise be good to very good, but falling to moderate during any of the heavier showers.

| **Freezing Level** | 1300m | 1300m | 1300m | 1300m | 1300m | 1300m | 1300m |

**Level above which ground is expected to be frozen/snow is expected to settle.*

**Meteorologist's View**

Cold on tops, especially in the wind and during showers, with warm layers recommended.

**Forecast for Tuesday 07 Nov 2023**

**Weather:** A similar day to Monday with a mixture of sunny spells and showers, although cloud perhaps a little more broken than on Monday. Showers again heavy at times, with a risk of thunder, and potentially turning to sleet on the very highest tops. Best of the drier weather across the southeast, although isolated showers will be possible here too.

**Maximum wind:** Westerly 25 mph gusts 40 mph.

**Chance of cloud-free hill tops above 800m:** 40% in the northwest and 70% in southeast

**Low Cloud and visibility:** Cloud will occasionally obscure hills above 800m, especially in the northwest. Cloud will also descend to around 600m during any heavier showers. Visibility will otherwise be good to very good, but falling to moderate during any of the heavier showers.

**Temperature:** **Valleys:** Plus 5 Celsius rising to Plus 10 Celsius.
**At 800m:** Plus 2 Celsius.
**Freezing level:** Just above highest summits
